Redcom Laboratories, Inc. warrants each new product manufactured and sold by it to be free from defects in material, workmanship and construction, except for batteries, fuses, or other material normally consumed in operation which may be contained therein, for a period of one year after shipment to the original purchaser (which period is referred to as the "warranty period"). This warranty shall not apply if the product is used contrary to the

instructions in its manual or is otherwise subjected to misuse, abnormal operation, accident, or repairs or modifications that have not been performed by Redcom. Redcom is not responsible for products which it does not manufacture.

Redcom's obligation under this warranty is limited to in-factory servicing and repairing, at Redcom's option, the product or the component thereof which is found to be defective. If in Redcom's judgment the defective condition in a Redcom product is for a cause listed above for which Redcom is not responsible, Redcom will make the repairs or replacement of components and charge its then current price, which buyer agrees to pay.

Redcom shall not be responsible if the following procedure for warranty claims is not followed. Redcom shall be notified of the claim with full information as to the claimed defect. Redcom products must be returned with the description of the claim defect and identification of the individual to be contacted if additional information is needed. Redcom products must be returned properly packed with transportation charges prepaid.

EXCEPT FOR THE LIMITED WARRANTY STATED ABOVE, REDCOM DISCLAIMS ALL WARRANTIES OF ANY KIND WITH REGARD TO REDCOM PRODUCTS OR OTHER MATERIALS PROVIDED BY REDCOM, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. REDCOM also reserves the right to discontinue delivery of products, as well as provide support for products, upon providing ninety (90) day advance notice if suppliers of said products discontinue the manufacture of the products to be delivered under this contract. In either event, however, REDCOM will propose for the consideration by the United States Government, a replacement product (s) that provides, at a minimum, the equivalent performance and/or functionality of the discontinued deliverable product. Upon expiration of ninety (90) days from REDCOM's notice of discontinuance, the discontinued product will be deleted from the contract and no further orders for such item will be issued nor accepted. **C. AIR FORCE FEDERAL ACQUISITION REGULATION SUPPLEMENT CONTRACT CLAUSES IN FULL TEXT**

**5352.216-9001 AWARDING ORDERS UNDER MULTIPLE AWARD CONTRACTS (MAY 1996) - ALTERNATE II (MAY 1996) (TAILORED)**

(a) All multiple award contractors shall be provided a fair opportunity to be considered for each order in excess of \$2,500 pursuant to the procedures established in this clause, unless the contracting officer determines that:

(1) The agency's need for the services or supplies is of such urgency that providing such opportunity to all such contractors would result in unacceptable delays;

(2) Only one such contractor is capable of providing the services or supplies at the level of quality required because the services or supplies ordered are unique or highly specialized;

(3) The task or delivery order should be issued on a sole source basis in the interest of economy or efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity pursuant to the procedures in this clause to be considered for the original order; or

(4) It is necessary to place an order to satisfy a minimum guarantee.

(b) Unless the procedures in paragraph (a) are used for awarding individual orders, multiple award contractors will be provided a fair opportunity to be considered for each order using the following procedures:

[See Alternate II below.]

(c) Under the provisions of the Federal Acquisition Streamlining Act of 1994, 10 U.S.C. 2304 (c) (Public Law 103-355), a protest is not authorized in connection with the issuance or proposed issuance of an individual task or delivery order except for a protest on the grounds that the order increases the scope, period, or maximum value of the contract under which the order is issued.

(d) For this contract, the designated task or delivery order ombudsman is Ms. Bonnie Taylor, ESC/PK, (781) 377-2201. The task or delivery order ombudsman is responsible for reviewing complaints from multiple award contractors and ensuring that all of the contractors are afforded a fair opportunity to be considered for task and delivery orders in excess of \$2,500, consistent with procedures in the contract. However, it is not within the

designated task or delivery order contract ombudsman's authority to prevent the issuance of an order or disturb an existing order.

(e) This clause does not guarantee the contractor issuance of any task order or delivery order above the minimum guarantee(s) stated in FAR Clause 52.216-19, "Order Limitations" of this contract.

Alternate II (MAY 1996). When the task or delivery order contract is for services or supplies where the basic contract statement of work is broad and the pricing is less precise, e.g., a list of labor rates, some contract with multiple awardees will be required to ensure fair opportunity and achieve a clear meeting of the minds as to the price and scope of the order. In this case, insert the following paragraph (b), substantially as written, into paragraph (b) of the basic clause:

(1) The Government will request that each multiple award contractor submit their technical and/or managerial approach, if necessary, and cost/price estimate in response to the Government's work statement.

(2) The response may be presented to the Government either orally or in writing.

(3) The Government will issue orders based on an assessment of the technical approach, past performance on previous orders awarded under this contract, and estimated total cost/price in making awards under this paragraph. The factors are listed in descending order of importance. Technical approach and past performance together are slightly more important than the price factor; however price will contribute substantially to the decision.
